Earplug

Article NO: C4003

Material: polyurethane foam

Colour: yellow

SNR: 28 dB

Reusable earplug with cord for repeated use. Three flexible flanges, neck strip. In plastic case.

Value of attenuation:

SNR: 28 dB		H: 29	M: 25	L: 24				
Hz	Frequency	125	250	500	1000	2000	4000	8000
dB	Mean attenuation	29,4	29,6	29,6	30,1	34,7	36,4	41,3
dB	Standard deviation	5,6	5,6	6,1	6,4	6,6	4,9	5,5
	Effective protection	23,8	24,0	23,5	23,7	28,1	31,5	35,8

This personal protective equipment is in conformity with these harmonized European Standards:

EN 352-2 : Hearing protection- General requirements.- Part 2: Earplugs.

Certified by notified body no. 0086 (BSI),
Certificate number CE 509641, dated 19th December 2006.

Pieces in carton: 1000
Pieces in box: 100
Polybag packing (pieces): 1
Carton weight: 17,3 kg
Carton size: 0,125 m³

An earplug must be properly inserted in order to reduce noise level. Sudden or fast removal of earplugs from the auditory canal may result in damage to the eardrum. These disposable earplugs that need to be shaped before use. Ear-plugs with a connecting cord MAY NOT be used in situations where the cord might get caught while being used. This product may be adversely affected by some chemicals. Although the earplugs are recommended for protection against the harmful effects of impulse noise, the SNR value is based on attenuation under uninterrupted noise and may not exactly reflect the protection attainable under impulse noise, such as shooting.
