

TECHNICAL DESCRIPTION

NAME: BNN THERMA WOOL Insole

CODE: 0633000020

SIZE RUN: 36-46

Characteristics:

1. Technical description:

Trimming winter insole with 30% sheep wool. Sheep wool is known for good warmth and ability to absorb up to 80% humidity. In this way, the insole provides not only warm comfort but also the feeling of dry feet. The underside of the insole is made of aluminum foil, which provides excellent thermal insulation properties. The insole is a great accessory for shoes in winter. Adjust the required size of the insole with scissors according to the marked sizes.

2. Material composition:

30% wool + polyethylen foam + aluminium foil
