

## **TECHNICAL DESCRIPTION**

PRODUCT NAME:	OP6000, PROFI POLISH BLACK OP7000, PROFI POLISH TRANSPARENT
TYPE:	waterproof concentrate for footwear
USAGE:	waterproof concentrate with the nourishing effect, suitable for the footwear from grain leather and footwear with permeable membrane
SAFETY:	-no danger -product has no harmful effect on the health of the people -in common conditions in solid state, no danger of escape to the environment
COMPOSITION:	natural and synthetic waxes, water-resistant additives, silicon oil, organic dyes, tanning greases and softeners, no dangerous materials
ARRANGEMENT OF EXTINGUISH:	non-flammable, but the dry rests can burn providing the oxides of the carbon. For the extinguishing is suitable extinguishing foam or $\rm CO_2$
STORAGE:	between 5 $^{\circ}$ C – 40 $^{\circ}$ C, product cannot be exposed to direct shining
PHYSICAL AND CHEMICAL CHRACTERISTICS:	
-1-1	

-state: -colour: -odour: -melting temperature: -explosiveness: -flammability: -oxidant characteristics: -density: -solubility in water: -organic dissolving agents: solid transparent, brown, black, light 80°-90°C non-explosive non-flammable none 1,0 kg/dm<sup>3</sup> miscible 0%
