60 BLACK

DESCRIPTION

Classic safety low shoes with a composite toe cap, which protects against compression with a force of up to 15 kN or the fall of a load weighing up to 20 kg from a height of 1 m. The antistatic robust outsole made of double-density polyurethane guarantees not only comfort but also safety thanks to composite antipuncture midsole and the anti-slip properties of the sole, which is also resistant to oils and abrasion. The water-resistant upper is made of natural split leather and the inner lining is made of breathable polyester. The shoes do not contain any metal parts and therefore are an ideal solution for areas equipped with a safety frame. These low shoes are available in large sizes up to size 50. This model belongs to the RAVEN XT footwear collection, which offers up to 22 models of safety and occupational footwear in all standards (S1-S3, O1, O2) and all possible designs: from sandals, low shoes, ankle shoes, high ankle boots to rigger boots. Thanks to this wide range of the RAVEN XT collection, it can satisfy the requirements of all customers, also thanks to the excellent price / quality ratio
