OVENBIRD gloves kevlar/nomex 27 cm

MATERIAL

Gloves material: Nomex
Gloves lining material: cotton, Knitted
Cuff material: Nomex

FEATURES

Gauge: 7 GG
Cuff type: knitwrist

TECHNOLOGY

DuPont™ Kevlar® aramid fiber is used to make a variety of clothing, gloves and accessories, heat and cut resistant. It's lightweight, durable and extraordinarily strong.

Inherently flame resistant, DuPont™ Nomex® provides lightweight and durable garments with proven flame and heat protection that cannot be washed or worn away, lasting 3-5 times longer than other protective fabrics.
